

AIR CONDITIONING EQUIPMENT

WITH THE UPCOMING HOT SEASON, WE WOULD LIKE TO OFFER YOU QUALITY AIR CONDITIONING FOR OFFICES AND SMALLER SPACES, INCLUDING CERTIFIED INSTALLATION.

And if the summer won't go according to your expectations, don't worry. Air conditioning will keep you warm, saving you up to 63% of your costs. In the colder months, you can also use it as efficient heating.

All modern air conditioners supplied by us also operate as heat pumps with up to 63% cost savings compared to convector heaters.

VIVAX R design

can be controlled with a smartphone

includes bio-bactericidal filter and air ionizer

AIR IONIZER

Air ionizers help improve the quality of life and breathing of people who sufferer from allergies and asthma.

Artificial air ionization cleans the air of pollen and allergen microparticles, removes dust microparticles, kills bacteria, and helps

to remove unpleasant odours (cigarette smoke, animal odours, etc.).

Air is cleaned so that dust aerosol particles receive electric charge through air ionization and are attracted to oppositely charged collector plates – collectors located inside the equipment.

VIVAX Q design

powerful air conditioning
antibacterial HEPA filters

This filter is made of cleaning material with excellent sterilization capacity and the ability to capture dust. When air flows through the filter, dust and bacteria settle on the surface of the filter which is bio-bactericidal. The capture efficiency of Escherichia coli and Staphylococcus aureus is greater than 95%.

VIVAX MOBILE AIR CONDITIONING

mobile practical solution

2.6 kW model

3.5 kW model

can be used for cooling and heating

advantages of VIVAX air conditioners

- A++, A+ energy class
- R32 refrigerant
- high efficiency
- self-diagnosis
- valve protection cover
- 1W standby operation
- dust filter
- cold Catalyst Filter
- self-cleaning system
- 2-way discharge
- digital display
- modern design
