

Visitor spaces in the fight against social exclusion

Coronavirus-resistant visitor spaces by ALGECO

During the current no-contact policy, residents of homes for the elderly or nursing homes suffer from separation from their loved ones. The modular and barrier-free visitor containers by ALGECO enable safe and direct face-to-face meetings. The systems for rent are ready for your needs in our plant and ready for use within a few days.

We will be happy to advise you in person or via a video conference.

ON REQUEST INCLUDING

- furniture packages
- modular ramp system for barrier-free access
- wireless two-way communication device
- solutions for networking and telephone connections, including terminal devices
- and much more from our extensive and affordable 360° service program

Benefits for you

- ✔ separate spaces to minimize the risk of infection
- ✔ 360° service including consulting services and cleaning
- ✔ planning by trained professionals
- ✔ availability throughout the Czech Republic and Slovakia
- ✔ short delivery times
- ✔ seamless implementation

HYGIENE MEASURES

The modules are disinfected before and after expedition for at least 30 minutes with Anosan® Verneblern. Anosan® is a strong oxidizing agent that destroys the viral envelope of coronaviruses (COVID-19). The disinfectant efficacy of Anosan® has been proven by the manufacturer.
